DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16, 26-27 and 35-36, drawn to a method in which a data link between a wired and wireless communication system is selected for transmission, classified in class 370, subclass 235/238.
 - II. Claims 17-25, 28-29 and 32-34, drawn to a system and method for carrying out regional communication between a plurality of mobile vehicles located within a region, classified in class 370, subclass 328.
 - III. Claims 30-31, drawn to a vehicular system that communicates its operational abilities to neighboring vehicles, classified in class 370, subclass 252.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as organizing the communications between a vehicle and other vehicles within the same region as the first. . See MPEP § 806.05(d).

Art Unit: 2697

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for any of Group I-III is not required for any other of Group I-III, restriction for examination purposes as indicated is proper.

A telephone call was made to Al Rose on 6/19/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Art Unit: 2697

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael E Robustelli whose telephone number is 703-305-8326. The examiner can normally be reached on Monday- Friday, 8-5.
